

Range Management

From Sign-In to Checkout, Completely Streamlined

Generic booking systems can't handle the unique requirements of shooting ranges. AIM's Range Management module was built specifically for firearms facilities, managing lane capacity, electronic waivers, memberships, rentals, and classes in one integrated system alongside your retail operations.

How AIM Range Management Delivers

-  **Manage Multi-Lane Operations** - Configure multi-lane management for your specific setup. Create and manage lane reservations. Monitor waiting lists and track lane usage in real time.
-  **Automate Membership Billing** - Create multiple membership tiers with different pricing and benefits. Establish discounts, lane rates, and priority perks by tier. Manage and collect automatic payments on daily, monthly, or yearly schedules.
-  **Eliminate Paper Waivers** - Integrate electronic waiver signing at check-in. Store and track customer waivers digitally for compliance and liability protection. Pull signed waivers automatically through online reservations.
-  **Track Firearm Rentals** - Create short-term rentals for firearms and equipment. Manage rental reservations and availability in real time. Track which firearms are rented to which customers on which lanes.
-  **Schedule Classes & Instructors** - Book courses and classes with flexible scheduling. Track attendance and manage absence credits automatically. Manage and bill students through integrated payment processing. Schedule instructors and process payments.
-  **Enable Online Reservations** - Offer online lane reservations through your website. Enable online class registration. Pull electronic signed waivers automatically. Reduce front-desk workload with self-service booking.

Core Capabilities

Range Management

Multi-lane configuration, lane reservations, waiting lists, real-time usage tracking

Membership Management

Multiple membership tiers, autopay setup, benefit tracking, usage reporting

Electronic Waivers

Digital waiver signing, searchable storage, online integration, compliance protection

Short-Term Rentals

Firearm and equipment rentals, availability management, rental tracking by customer

Class & Instructor Scheduling

Course booking, attendance tracking, absence credits, student billing, instructor payments

Online Reservations

Self-service lane booking, online class registration, electronic waiver pull-through

Integrated Operations

Unified with retail POS, automatic membership discounts, one customer database

Multi-Location

Centralized range management, local-level performance, consolidated reporting

What Makes AIM Different:

- Integrated with Retail
- Fill Lanes Faster
- Real U.S.- Based Support
- Proven & Stable

Complete Firearm Ops Software | Customer-Driven

Product Improvements | U.S.-Based Support
